Canada's total merchandise exports during the same time frame increased 114.6%, from $212,493 million in 1994 to $365,008 million in 2002. Between 2001 and 2002, Manitoba's foreign exports decreased by 2.9% while Canada's foreign exports decreased by 2.7%.

Manitoba's merchandise imports from other countries grew from $5,229 million in 1994 to $9,982 million in 2002, an increase of 90.9%. Between 2001 and 2002, Manitoba's imports increased by 2.0%.

Consequently, the United States' percent share of Manitoba exports has risen from 72.4% in 1994 to 81.6% in 2002. Five of the last nine years have produced double digit annual growth in export trade with the United States, averaging a compounded 13 percent per year. Exports to the U.S.A. for 2002 were 1.0% higher than during 2001, while imports from the U.S.A. were down 0.1% during that same time frame.

INTRODUCTION:

This report has been prepared by the Manitoba Bureau of Statistics (MBS) as part of its economic statistics program. Its purpose is to provide information for Manitoba on the importance and impact of international merchandise trade.

This publication provides international merchandise trade data by country, commodity and industry. The information is from Statistics Canada's International Trade Division. Merchandise trade data presented covers the 1994 to 2002 calendar years.

Users should be aware that the export data is on a "province of origin" basis, while the import data is on a "province of clearance" basis. Therefore, a significant quantity of imports from other countries are not counted as they are cleared through custom ports in other provinces and then shipped to Manitoba (MBS would count these as interprovincial imports). This implies that the trade balances calculated for individual countries could overstate Manitoba's actual position.

All commodity data presented in this report are based on the Harmonized System (HS) which was adopted for both exports and imports in 1988.

The Manitoba Bureau of Statistics has available additional detailed information which can be supplied to interested users on a cost recovery basis. Export/Import information that can be provided includes:

i) individual commodities for specific countries
ii) individual commodities by country (volume and dollar value) at the 4, 6, 8, or 10 digit HS level
iii) commodities by country for specific industries or sectors.

Trade information is also available in **MBS Trade**, an information system that provides the top 25 commodity exports or imports for an individual country, US state or trading area. Access to this system is available on a subscription basis.

For further information regarding MBS Trade or custom requests, please contact Marcel Chartier at (204) 945-2991.

NOTE TO USERS:

This publication contains the revised trade information for the 1999 to 2002 period. These are the most current numbers available from International Trade Division. The 2000 to 2002 information is subject to further revision in February, 2004.

The presented export information is as released by Statistics Canada. MBS has made no revisions to Statistics Canada's cereal grains, oil seeds or crude petroleum export values for Manitoba. MBS adjusts the value of exports for these commodities in its Manitoba Economic Accounts. These adjustments are undertaken to better reflect the value of the foreign export of these commodities to the provincial economy.

In this publication, the MBS has made adjustments to the import statistics released by Statistics Canada. Firstly, adjustments have been made on 1992, 1993, 1997, 1998, 2001 and 2002 aircraft imports from France to better reflect Manitoba's true share of these imports, which are being used throughout Canada. The second adjustment is that the MBS import value excludes commodities classified as "Imports from Canada".

Due to valuation issues, MBS has also made revisions of Coin (HS 7118) exports to the United States and Articles of Copper, nes (HS 7419) imports from the United States for the 2000 calendar year. The $898.9 million reduction in Coin exports translates to a 9.4% reduction in total exports for 2000. Similarly, the $1,340.3 million reduction in Articles of Copper, nes imports translates to a 12.5% reduction in total imports for 2000.

Country detail in tables 5 through 8 of this report has been modified. The former USSR and East Germany have been removed while eleven countries have been added.
